### **'Churches Count on Nature' Survey.**

As part of our eco-credentials the benefice team are joining with churches of all denominations for this annual survey. We are looking for volunteers to identify what is living in, using or growing in our churchyards. A sheet can be found in church for you to record what you see at any time of the day/week to suit you (between 6th and 14th June). Early morning, lunchtime or sitting in the evening tranquillity and keeping a lookout – just remember to record all you have seen! All completed forms can be returned to pick-up point, and will be entered into the national biodiversity database. Thank you.
